A to Z of Mini Muslims: An Alphabet book exploring all about Islam and being a Muslim teaches the alphabet to children in a unique manner. Instead of using typical shapes, animals, and things to teach each letter, this fantastic children's book uses words and phrases associated

with the religion of Islam to explore each letter. This approach makes this picture book more than just a letter learning book; it is an introduction for those that are not familiar with the Muslim faith.

Author Mariam Latifi and illustrator Saba Yasmeen have created a children's book that even adults can learn from. The vibrant and welcoming images on each page give readers a look into the Islamic religion; for those practicing Islam, The artwork will keep young readers engaged as they learn the alphabet, and older children can pick out details from around the world as they move through the pages. Seeing characters that look and participate in the same activities is crucial. Representation is essential to children and allows them to know they are seen and valued.

I love that this picture book teaches more than just letters of the alphabet. Learning the names of the lunar months and the meaning behind some of the Islamic holy days was fascinating. This is really an eye-opening book for more than just children. Adults can learn just as much from this educational book as other children that do not grow up in this faith.

A to Z of Mini Muslims: An Alphabet book exploring all about Islam and being a Muslim is an exceptional picture book that will entertain readers young and old with actual facts about the religion of Islam and the Muslim faith. Any library would find this to be an excellent addition to their shelves and a great resource for teachers when teaching about diversity.

Equity, Diversity, and Inclusion are key concepts for all ages to embrace. *A to Z of Mini Muslims* by Mariam Latifi is a perfect choice to introduce young children to Islam. Each letter of the alphabet highlights something special about Islam. Some of the words are very specific to Islam, like H is for Hajj and other letters use words that will be very familiar to all kids like N is for Neighbours. Latifi mentions the five pillars of Islam and talks about the lunar months. The illustrations also provide lots of information and include pictures of the Kabbah and step-by-step instructions for performing wudu (ritual washing). Latifi has also included a note to parents, a glossary, and discussion questions at the end.

A to Z of Mini Muslims is a unique and informative alphabet book. Young Muslims now have a book celebrating their religion. Children are full of questions, and if kids are not familiar with Islam, this serves as a great introduction for them. Mariam Latifi has filled each page with lots of facts but never in an overwhelming way. The illustrations by Saba Yasmeen are cheerful and full of Australian references. Each spread contains a wealth of information, from the foods depicted to the décor on the walls. As a non-Muslim adult, I learned many things. Diversity in our world is something kids need to embrace and engage with from a young age. *A to Z of Mini Muslims* presents Islam and the Muslims who practice it engagingly for both kids and adults.
